1.1 Introduction

This Design and Access Statement addendum has been prepared as part of the resubmission pack for the Lots Road development, following the original Planning Application submitted in July 2025 (PP/25/04416). Since the initial submission, a series of comments and feedback have been received from stakeholders and the local planning authority.

The key changes made in response to these comments are summarized below:

- **Northern Access point:** The Application site and Heatherley's School of Fine Art will each maintain independent and separate access points. This change ensures clear boundaries and autonomy for both sites whilst maintaining efficient vehicular and pedestrian circulation for the development. As part of this change, Block D has been pulled further back from the site's northern boundary.
- **Affordable Housing Mix:** Following valuable feedback, the general needs affordable housing mix has been carefully reviewed and adjusted to better meet borough priorities and local policy requirements.
- **Block D Core Update:** The residential core in Block D has been updated to reinforce compliance with the latest BS9991:2024 standards.
- **Residential Entrances Reconfiguration:** The residential entrances for Blocks D and C have been rearranged to improve legibility, accessibility, and user experience from Lots Road.
- **Internal Layout Adjustments:** Minor adjustments have been made to the internal layouts to optimize space, without impacting the overall design intent.
- **Ground Floor Elevation Refinements:** Small modifications have been implemented in the ground floor elevations to improve architectural articulation and functionality, as well as user experience at pedestrian level.

Section 1. Updates

1.1 Changes to Block D

1.1.1 Revised Design for Block D/C Entrance Area

Following discussions with Heatherley's School of Fine Art post-planning, it has now been agreed that both sites will maintain independent and separate vehicle access and, as a result, the design of Block D has been revised to accommodate this arrangement. Specifically, the northern wall of Block D has been set back by 3m to allow full vehicle access into the site, ensuring unimpeded and safe circulation for all users.

In addition, the entrance area serving Blocks D and C has been redesigned to enhance the functionality, accessibility, and overall user experience for residents on Lots Road. The revisions focus on improving circulation and operational logistics while maintaining clear and independent access routes.

Key changes include:

- 1. Reduction of Block D:** Block D has been scaled back to preserve independent, separate access for both sites. This maintains privacy and distinct circulation routes for both schemes, and improves the relationship with the school's facade and boundary.
- 2. Enhanced Residential Lobby Access:** The redesign provides improved and more spacious residential lobbies that facilitate smoother movement into the building core. Both private and affordable lobbies have been widened, with a centralised entrance door for legibility and wayfinding. Additionally, post boxes have been relocated away from the main circulation areas to reduce congestion and create a more spacious, comfortable environment for residents.

PLANNING APPLICATION JULY 2025

RESUBMISSION SEPTEMBER 2025

- 3. Reconfiguration of Bulk Waste Storage:** Bulk waste storage has been reorganized and widened to create a more functional shape. In addition, access to this area is now restricted to rear entry only, minimizing visual impact from the main residential entrances along Lots Road..

- 4. Direct and Separate Basement Access:** A dedicated and more direct access route to the basement has been introduced to provide convenient and segregated circulation for residents and maintenance users alike.

PLANNING APPLICATION APRIL 2025

Access to residential stair
Access to basement

RESUBMISSION SEPTEMBER 2025

- 5. Internalized Bin Store Access for Block D Residents:** The bin store for Block D residents has been repositioned to allow convenient internal access, and to reduce the travel distance between the homes and bin stores.

PLANNING APPLICATION APRIL 2025

Access to refuse store

RESUBMISSION SEPTEMBER 2025

1.1 Changes to Block D

1.1.2 Revised core and layouts on typical level

The upper levels of Block D have been revised to accommodate the new requirements for separate, independent vehicular access at ground floor. To ensure sufficient clearance for the vehicle route, the northern external wall has been set back by 3 metres, which results in some internal layouts adjustments.

1. The previous one bedroom two person (1B2P) wheelchair flat has been replaced for a standard 1B2P, and the wheelchair provision has been reprovided in block A in the form of an equal amount of 2B4P wheelchair flats.
2. The 3B6P has been updated to increase the entrance hall area and to reduce the overall travel distance across the deck from the unit to the core.
3. Additionally, the residential core has been updated to more closely align with the latest BS9991:2024 standards. The revised design now features a combined stair and lift lobby, with a stairwell that is more open and designed to encourage resident interaction.

PLANNING APPLICATION JULY 2025

RESUBMISSION SEPTEMBER 2025

1.1 Changes to Block D

1.1.3 Revised elevations

Block D elevations along Lots Road have been revised to reflect internal layout changes. These revisions include the relocation of residential entrances and ancillary doors at ground floor level to reflect the changes in the core, as well as updates to the positioning of windows and balconies on the upper floors.

Despite these modifications, the overall elevation strategy remains unchanged, maintaining the original the brick detailing and material palette.

PLANNING APPLICATION JULY 2025

RESUBMISSION SEPTEMBER 2025

1.1 Changes to Block D

1.1.3 Revised elevations

The inner courtyard elevations have been revised to reflect internal layout changes. The overall elevation strategy remains unchanged, maintaining the original the brick detailing and material palette.

PLANNING APPLICATION JULY 2025

RESUBMISSION SEPTEMBER 2025

1.2 Changes to Block C

1.2.1 Changes to Affordable Housing Mix

In response to council feedback regarding the affordable housing mix, several adjustments have been made to better align with local requirements and policies:

1. One of the existing 2 bedroom 3 person (2B3P) flat has been enlarged and converted into a 2 bedroom 4 person (2B4P) flat to provide additional space.
2. To accommodate the increase in size of the 2B4P flat, the other 2B3P flat has been reduced to a standard 1 bedroom 2 person flat.
3. Both 3 bedroom flats have been revised to ensure compliance with local policy requirements, specifically by increasing the kitchen areas to 13 square meters or larger.
4. As a consequence of these revisions, one of the 3 bedroom flats has been redesigned, including alterations to the bedroom layouts to optimize space and usability.

These changes occur at each typical level.

PLANNING APPLICATION JULY 2025

RESUBMISSION SEPTEMBER 2025

1.2 Changes to Block C

1.2.2 Revised elevations

Block C northern elevations have been revised to reflect internal layout changes. The overall elevation strategy remains unchanged, maintaining the original the brick detailing and material palette.

PLANNING APPLICATION JULY 2025

RESUBMISSION SEPTEMBER 2025

1.2 Changes to Block C

1.2.2 Revised elevations

Block C western elevations have been revised to reflect internal layout changes. The overall elevation strategy remains unchanged, maintaining the original the brick detailing and material palette.

PLANNING APPLICATION JULY 2025

RESUBMISSION SEPTEMBER 2025

Lots Road South: Design and Access Statement

1.3 Changes to Extra care & Community Centre frontage

1.3.1 Revised elevations

The southern elevation of the courtyard has been revised to simplify the overall architectural expression and improve visual legibility for users at the ground floor.

The updates reflect an improvement on the choice and treatment of materials in these areas. The positioning of the entrances and size of the openings are unchanged.

PLANNING APPLICATION JULY 2025

RESUBMISSION SEPTEMBER 2025

1.4 Revised Plans

1.4.1 Ground floor

KEY

 Key changes September 2025

Key changes:

1. Additional doors to SIES entrance
2. Revised elevation treatment of Extra Care and Community Centre
3. Changes to Block D/C ground floor ancillary
4. Updated site boundary to exclude Heatherley's courtyard

1.4 Revised Plans

1.4.2 First Floor Plan

KEY

- Private dwellings
- Affordable Social Rent Dwellings
- Affordable Social Rent Dwellings - Extra Care
- ▲ Residential Access

 Key changes September 2025

Key changes:

1. Block C revised mix
2. Block D revised footprint, mix and core

1.4 Revised Plans

1.4.3 Second - Fourth Floor Plans

1.5 Proposed Uses

1.5.1 Tenure & Mix

The changes proposed for this resubmission do not affect the overall building heights or the general tenure distribution within the scheme.

There have been some adjustments to the private and affordable general needs housing mix, as detailed as detailed below, but no changes to the total number of units being provided across the scheme.

In terms of non residential uses, the flexible commercial space has been reduced slightly due to the set back and reduced footprint of Block D on the northern side. Other non-residential areas have remained largely unaffected, with only minimal adjustments made, primarily related to plant room reconfigurations.

1.6 Revised Diagrams

1.6.1 Access Strategy

The access diagram has been updated to accurately reflect the recent design changes to the Block D/C entrance area. Despite these adjustments, the overall access strategy remains unchanged.

1.6 Revised Diagrams

1.6.2 Parking, Deliveries & Servicing Strategy

The delivery and access route hasn't changed but the blue badge resident cars will now follow the one way access route now too, whereas previously they were accessing and egressing by the northern access.

1.6 Revised Diagrams

1.6.3 Cycle and Buggy Parking Strategy

The cycle and buggy parking strategy remains largely unaffected by the recent design changes. The only minor alteration involves the relocation of two Sheffield stands from Block D to the basement. This adjustment facilitates the more generous lobby areas in Blocks C and D.

KEY

- Cycle store
- Visitor cycle parking
- Buggy store
- Cycle Core
- Buggy Access
- Cycle Access

Basement Plan

1.6 Revised Diagrams

1.6.4 Waste Management Strategy

The waste management strategy has been updated to reflect the new location of the refuse store for Block D and to accommodating a slightly larger refuse store for Block C.

The update also includes revised dimensions and access arrangements for the bulk waste store, as illustrated in the diagram on this page.

KEY

-  Refuse collection vehicle
-  Bulk refuse store
-  Residential refuse stores
-  Residents' route to refuse store
-  Refuse vehicle access
-  Route from refuse store to collection vehicle

PLANNING APPLICATION JULY 2025

1.6 Revised Diagrams

1.6.5 Emergency Access Strategy

The emergency access strategy remains unchanged, with only minor adjustments to door positions at the Block D and C entrances. These slight modifications do not affect the overall emergency access arrangements.

Notes:
Please note the following:
Bin/bikes for commercial units assumend to be provided within each unit.
Deck access natural ventilation strategy must ensure 50% free area provision

Area clarifications:
Plant rooms have been proportionally split between commercial and residential based on IN2 email on the 25th March 2024 (with the exception of sprinkler tank room)
None of the parking areas are included within the GIA/GEA. Undercroft have been excluded from overall GIA/GEA calculations.
Shared cycle store has been equally split between residential blocks.
NSA not included for this issue
Overall GIA for Sprinkler tank room is as per latest MEH mark up
Inset balconies and deck access have been included as separate figures. Inset Balconies are considered when enclosed by min three sides
